

30 KG OF PAPER SAVED PER WEEK!

**NOUVELLES
FRONTIÈRES**

Groupe Nouvelles Frontières, Great Britain's TUI Travel PLC's branch, is a leading actor in Tourism Industry in France. Nouvelles Frontières and TUI France for Tour Operator activities and Corsairfly Airline employ 3 000 people and have annual sales €1.16 billion distributed over 350 branch offices with store brands "Nouvelles Frontières" et "Havas Voyages". For each customer, Groupe Nouvelles Frontières is dedicated to the idea that "travelling is also sharing".

CHALLENGE

Groupe Nouvelles Frontières receives and sends invoices, orders and other administrative material by fax. The company handles up to 3000 faxes per week. This represents 30 kg of paper and a high cost for consumable supplies and materials.

As a result, Nouvelles Frontières wanted to reduce fax-related expenditures, secure all trade-related data transfer; which would strengthen the company's ecological and responsible approach.

"QuesCom's Fax Solution secures fax sending and receiving and makes Nouvelles Frontières save up to 2 000 kg of paper each year. Moreover, consumable supplies and fax do not need to be replaced anymore."

*David Le Dorlot, Technical Manager
Nouvelles Frontières*

SOLUTION

In 2005, the QuesCom appliance with embedded fax solution was installed at Nouvelles Frontières's headquarters (500 employees) which was replacing the 60 fax machines already existing.

- Fast Return on Investment in less than a year
- Savings on paper and fax consumable supplies
- Backing up of data, no more lost data
- Productivity gains and comfort of use for the user
- Data confidentiality
- Ecological solution: Nouvelles Frontières saves today more than 6 kg of paper per day!

TECHNOLOGICAL ENVIRONMENT

- Alcatel OMNIPCX (IP)
- Microsoft Outlook and Microsoft Exchange Server
- 500 sets for users

BENEFITS

The process of sending and receiving faxes at Nouvelles Frontières has been improved with recommended QuesCom solutions.
