

## **Epygi certifies IP PBX interoperability with QuesCom mobile gateways**

*Direct connection to mobile networks improves enterprise costs and efficiency*

**Plano, TX, USA, and Nice, France, June 14, 2010** - Epygi Technologies, Ltd., a worldwide provider of IP PBXs, gateways and conference servers supporting small businesses to enterprise's telephony needs, and QuesCom SA, a leader in mobile gateway/FMC solutions, team up to provide direct mobile network access for Epygi IP PBX users. The combined solution allows for significant cost savings by effectively managing call routing and enabling calls free from fixed-to-mobile termination fees.

"Partnering with QuesCom further enhances the solution offering from Epygi Technologies. Epygi is very selective with our partner program only working with the best of breed solutions in the market." said Mario Cuello, Epygi Technologies' CEO. "The QuesCom solutions have been tested and verified by our validation team. Our customers can now comfortably use this solution in conjunction with the Epygi IP PBX products."

"We are excited about the opportunity to work with Epygi and their outstanding IP PBX product line. The enterprise market will surely realize the value of both products deployed together as an integrated solution," said Philippe Oros, CEO, QuesCom SA.

Available through Epygi's current resellers, QuesCom accommodates the smallest to the largest demands for mobile network connectivity. Over the last 10 years QuesCom has been trusted by the largest banks, call centers, industries as well as local authorities to deliver integration to IPPBX environments ensuring cost savings and VoIP backup over the mobile network. At the same time Epygi has deployed feature-rich IP PBXs around the world, and now, the two great product lines work together.

### **About Epygi Technologies**

Epygi Technologies, Ltd., a worldwide provider of IP PBXs, gateways and conference servers supporting small businesses to enterprise's telephony needs, is a private US company founded in 2000 and has its headquarters in Plano, Texas. It designs and manufactures its market-leading products using its own IP PBX call manager software based on standard SIP technology. Through its network of respected dealers in over 45 countries, Epygi provides converged telecom solutions to organizations wherever they are.

Reliable, secure, and easy to install and use, the Quadro range of IP PBXs, VoIP gateways and cost-saving conference servers offer users outstanding benefits and an unparalleled range of features at very economic prices. The state-of-the-art equipment gives superior sound quality and a quick return on investment because of its low maintenance cost. Organizations with offices with multiple branches, call centers, remote workers and locations with 2 – 200 employees are benefiting from Epygi's best-of-breed Quadro solution. These customers are able to improve their productivity, lower operating expenses, enhance their image and while affording the latest in telecommunications equipment.
